Australian Mines and Services Handbook 2024

ABOUT US

The *Australian Mines and Services Handbook 2024* will be distributed in February 2024 and is an invaluable resource for those who work in the mining industry.

Based on the **sensational response** to the annual 2021, 2022 and 2023 editions, the **2024 edition will be even larger** and include detailed information on over **700 mine sites**.

The publication profiles operating mine sites across Australia and also highlights companies that specialise in providing products and services to the industry.

A total of 3000 hard copies will be delivered free of charge to mining company executives and mine sites. Mine site recipients will include Mine Managers, as well as those who work in areas such as Maintenance, Purchasing, Exploration, Engineering, OHS, Plant Processing and more. Additional copies will go to companies promoting their businesses in the directory.

THE PUBLICATION

The *Australian Mines and Services Handbook 2024* is produced in both hard copy and as an electronic version for our subscribers and comprises three sections:

- 1 Commodities and the year ahead
- 2 Directory of mines
(Divided into states & cross referenced against main commodity)
- 3 Directory of services to mines

Australian Mines and Services Handbook 2024

1 COMMODITIES & THE YEAR AHEAD

This is a collection of articles and interviews from recognised industry players which provides essential information and well-founded predictions for the year ahead.

As the mining industry continues to gather positive momentum, there are huge plans on the drawing board. Together with sound commodity prices helping the bottom line, will see 2024 shaping up for solid growth. Comments from senior economists, industry players, government representatives and other relevant organisations will be published.

2 DIRECTORY OF MINES

The **Mines Directory** highlights the operating mines of Australia. This is an extremely useful guide for mining companies and contractors. The format as shown below, provides an essential snapshot of over 700 mines, with the following information:

- ✓ **Mine site:** Name and location (latitude/longitude)
- ✓ **Ownership:** Asset ownership; company/ companies holding significant shares
- ✓ **Operation:** Minesite contact information
- ✓ **Development status:** Snapshot of development plans and action at the mine, which includes exploration activity, construction and upgrades
- ✓ **Commodities:** Ores mined
- ✓ **Process:** Processing method

3 DIRECTORY OF SERVICES TO MINES

The comprehensive Services Directory lists an A-Z of all the goods and services used in the industry and is an indispensable reference tool at mine sites. This is an outstanding and inexpensive way to keep in touch with the respective heads of departments and management at the mines.
